WORK EXPERIENCE

Solutions Developer & UI Designer

RELIANCE INFOSYSTEMS LIMITED

Aug 2021 - Present

I write release notes for new features and core development updates of our ERP solution and perform technical support for clients. I worked with the team in creating a markdown version of our client user documentation which is currently live, I create web and mobile UI and prototypes, updated UI icons for our existing ERP solutions using MDI, I honed my skills in Microsoft Azure and earned the Azure Administrator Associate certification during this period. I perform Azure DevOps and scrum practices.

Solutions Developer Intern

RELIANCE INFOSYSTEMS LIMITED

Jan 2021 - Aug, 2021

I learned to work with new technologies at a fast pace, worked with the team in revamping the UI of an existing ERP solution, I did basic code testing using jest, I also acquired fundamental skills in Microsoft Azure cloud platform and earned the Azure fundamental certification during this period. I worked with Azure DevOps, performed scrum master role using Azure boards, created test plans, I wrote release notes for newly shipped features of an existing ERP solution, run builds for existing pipelines, team collaboration using Azure Repos for version control and pushing individual tasks.
